Events and Highlights of the Day The day began with Kristen, the mate of the day, playing everyone's favorite Irish jig. We all got up pretty quickly this morning because we were excited to practice our jibes on the way to Little Harbor. Plus, we had heard that the beach on Sandy Cay was beautiful! Jen and Heather made an awesome egg and cheese casserole for breakfast. After that we got underway and Will and Eric taught a hilarious lesson on Bernoulli's Principle. We thought the exciting part of our sail was over, but a pod of dolphins came up at the end and escorted us into the harbor! And as for the beach, it was even more BEAUTIFUL than everyone had said.

Events and Highlights of the Day We arrived at the airport.
The weather was much better than expected.
We got into a big open truck. The ride was
about 30 min but it was fun, we went up and
down mountains at high speeds with curves in
the road. On our right was the ocean
on our left was the lush green hills
of Tortola. In the ocean we saw the wrecks
of the boats from the last hurricane. Many
boats were on land and others had been
sunk. We then arrived at Holger Creek.
There was a lot of sea weed at the beach. I
thought it was going to smell that night
but it didn't. That night was not
the best night for sleeping but it led
into a great experience.

wheel wouldn't turn, but everyone managed to
stay calm and tried to come up with a plan
to fix the problem. I think that we have a
really good and determined crew, so we
can handle any problems that Meursault,
