Events and Highlights of the Day The day began with Kristen, the mate of the day, playing everyone's favorite Irish jig. We all got up pretty quickly this morning because we were excited to practice our jibes on the way to Little Harbor. Plus, we had heard that the beach on Sandy Cay was beautiful! Jen and Heather made an awesome egg and cheese casserole for breakfast. After that we got underway and Will and Eric taught a hilarious lesson on Bernoulli's Principle. We thought the exciting part of our sail was over, but a pod of dolphins came up at the end and escorted us into the harbor! And as for the beach, it was even more BEAUTIFUL than everyone had said.

Events and Highlights of the Day: I woke up my crew at 7:00 o'clock in the morning and we ate breakfast. After breakfast I got to the staff - meeting to know more about our exciting day. There I discovered that I had to wake up my crew at 8:00 o'clock and that we had to make breakfast at 8:30. There I also got to know the schedule of the day (very exciting). During our sail I did many mistakes but the rest of my crew worked really well. When we got to nanny cay we had to take pick up the morning ball. On the 3rd try, we picked it up, so I think it went pretty well. Then we got snorkeling to pick up the trash, but there was no trash. Instead of the trash we got to see a shark. We ate chicken and rice for dinner and we made our boat meeting, that was a like a deep breath. At 21:30 we got to sleep

Events and Highlights of the Day we wake up at seven and
started the day off fast. we all needed to
get ready for Race day. Once we were
all ready to go we waited for the 15 minute
count down. Then the time came, we jump up
and as fast we could tried to get to the
starting line. Yet, sadly we were too late and
did not get ready fast enough so we weren't able
to raise the sail before the time started. So
we had a delayed start but that did not get us
down. we almost got to second place but
we could not just get there fast enough
and we ended up in 3rd place. Most of us
were sat but when we put our anchor
