Pre-departure Checks Completed: YES Time of Departure: 10:30AM Time of Arrival: 12 PM
Weather, Wind, and Sea Conditions: sunny, 15 kts, gusty, 2ft seas

Events and Highlights of the Day The day began with Kristen, the mate of the day, playing everyone's favorite Irish jig. We all got up pretty quickly this morning because we were excited to practice our jibes on the way to Little Harbor. Plus, we had heard that the beach on Sandy Cay was beautiful! Jen and Heather made an awesome egg and cheese casserole for breakfast. After that we got underway and Will and Eric taught a hilarious lesson on Bernoulli's Principle. We thought the exciting part of our sail was over, but a pod of dolphins came up at the end and escorted us into the harbor! And as for the beach, it was even more BEAUTIFUL than everyone had said.

Events and Highlights of the Day Today we stayed at Cooper Island
and focused on diving. The students going for their open water diving
certificates did exercises in the water while everyone else hung
around shore and did watersports. I had a freakin blast on
the wakeboard! Then, all advanced and rescue divers went
on a dive in the afternoon, it was an awesome dive. Once
everyone was back to boats and had eaten dinner, the advanced
and rescue divers went on a night dive!!

 Pre-departure Checks Completed: Yes Time of Departure: 2:38 Time of Arrival: 4:36
 Weather, Wind, and Sea Conditions: Partly Overcast, Slow wind, calm sea

Events and Highlights of the Day Today concluded maintenance of our freshwater jumps. Before the Gargihar departed from Coober Pedy Island, the divers performed wreck & deep dives. Non divers linked with Fox trot for a short sail about 100m. Our crew has broken new ground. Our teams very quickly adapted to new positions for each of the following maneuvers: First unmooring, first motor jib, & Mediterranean Anchor. Even our crew members with no sailing experience demonstrated ability to study quickly & work with limited personnel, equipment, & resources. Notably Jordan required to leave the ship before our departure from Coober Pedy Island sustained a cut on her foot when jumping into the water for showers. (cont. track)

Events and Highlights of the Day We started the day by sailing to Nanny Cay where we refilled our water. We were able to dock + de dock with out any problems + were complimented by multiple people. We then sailed to Dead Man's Bay which was our best sail so far where we were able to independently do some tacking and handle sails. Once we arrived we sort of quickly anchored w/out ~~any~~ fear any issues. After we swam all together + then the divers went on 1 dive. ~~Once~~ Lastly at night Joey, Mia + Henry made a fantastic dinner that even 2 people ate w/ us that were from other boats. Events and Highlights of the Day Our crew did an amazing job deanchoring, although we can always improve on communication. We sailed all the way to the Indians, where we went snorkeling and had a great time. On the way to the Indians, there was a small storm with lots of rain and larger-than-normal waves. Our ship broke 9 knots, which was amazing. Our mooring at the Indians was very fast and effective. Our communication increased even more for our mooring then deanchoring at the Indians than deanchoring. We sailed over to Norman Island and learned how to jibe and then arrived at Norman Island at the Bight. Once again, our communication improved ~~and~~ during our mooring. We missed hooking the mooring ball on the starboard bow, but quickly recovered and hooked the ball at the port bow. After dinner, we had a social, which was great to talk to friends from other boats and make new friends. We returned to the boat and fell asleep quickly after a long and tiring day.

Day 7: We got up at 7 and had cinnamon rolls, then headed to the dive boat around 8. The Charlie divers first dove at Santa Monica rocks which is just submerged rocks in the middle of the sea, but each diver saw about 8 sharks, one of which slapped Tim. Next the dive boat tried to find the Thirstagram but the Mooring ball had been lost, so we skated all the way up to Salt Island where we dove the Rhene stern again. Once we were back, we had lunch and sailed to Nanny Cay, where we had to totally leave the marina to reapproach from the channel, which was a good note. We had a really great docking and immediately started cleaning the boat for inspection. We had a social at 8 and got to check out all the other boats before going to bed.

Events and Highlights of the Day We started the day with time with our phones + time at the grocery store, where we bought snacks + drinks (and George bought 2 24-packs of Cherry Coke).
Because of an issue with our engine, we had extra time at Nanny, where we hung out at the pool + got Pina Colodas.
We then sailed to Marina on staff boat because our boat was still being fixed. This was a new + interesting challenge for us because staff boat is a catamaran, which is bigger than our monohull, but the lines are much closer together. We picked up a mooring ball at Marina without talking + with little help from staff, which was difficult + on the new boat but was a fun challenge. We hung out + ate dinner on staff boat until Zanzibar came, where the stairs broke as soon as we got on. They were fixed temporarily so we could get ready for bed after a long day.

CHALLENGE DAY

Events and Highlights of the Day Today was challenge day so Melun and Tim weren't able to help us in any way except for our three questions. The crew did a great job getting pre-departure checks done while I went to the morning skipper meeting. Then we dropped the ball at Anegada 15 min early and began our sail to Cane Garden Bay on Tortola. The sail was really fun because of how windy and rolling the waves were. While on the sail the crew was very active with participation even though I watched every crew member nap at least twice. Once we got on the ball at Cane Garden Bay, which took a couple attempts, everybody hung out in the water and began lunch prep. Then, all the boats on ~~the~~ mega fleet went to shore and chilled for a bit. Shore was really fun because there was ice cream and snow cones. ~~After~~ After returning to boats we began our nightly routine of cleaning the boat and making dinner, and that concluded our lovely challenge day.

Events and Highlights of the Day Today's a difficult day. We experienced heavy rain & had to motor out of Cane garden way. The Tuana passage we set as a waypoint was dead to windward, & we recorded 28 knots of wind. Fast action from Chloe & Jordan let us reef ~~our~~ our sails quickly & safely, & Henry plotted a course to make upwind progress with little difficulty. Trellis Bay mooring field was quite crowded, so our approach for shall needed a few tries. Lunch was normal, but we immediately set into our trash snorkel. It feels good to do community service. and the dives left for a fin dive while the
rest of the crew stayed on board for
Race Day! After a 3 hour sail our boat
came in first + anchored outside of Long
Bay. we had grilled cheese + tomato
soup for lunch and once we all got back
to boats we shuttled to shore to start
Olympics! During olympics we won the
rope pull but not the dizzy fender race because
of a broken fin. The BBQ was delicious
and we all returned to boats for
showers and an early boat
meeting to end an awesome
day.

Events and Highlights of the Day Today was our last full day!! We started the morning with an early motor over to the Baths. Once we picked up a mooring ball we ate breakfast then went to shore for a lesson about the formation of the BVI followed by a hike through the rocks then a snorkel around them. The reef was beautiful & we ended the adventure by jumping off jump rock. We then went back to boats then to Hodges where we packed & cleaned before dinner & awards! We won race day & the rope pull & then performed our amazing skit & ended the night writing airplane letters.

Events and Highlights of the Day this morning was bitter
sweet as we said goodbye to strangers
that quickly became like family and thank
you for all the memories we
made.

Although our tired eyes held
back tears we have to remember
the wise words once spoken by Dr. Seuss -
"don't cry because it's over, smile
because it happened"
