Events and Highlights of the Day The day began with Kristen, the mate of the day, playing everyone's favorite Irish jig. We all got up pretty quickly this morning because we were excited to practice our jibes on the way to Little Harbor. Plus, we had heard that the beach on Sandy Cay was beautiful! Jen and Heather made an awesome egg and cheese casserole for breakfast. After that we got underway and Will and Eric taught a hilarious lesson on Bernoulli's Principle. We thought the exciting part of our sail was over, but a pod of dolphins came up at the end and escorted us into the harbor! And as for the beach, it was even more BEAUTIFUL than everyone had said.

Events and Highlights of the Day Race day! The absolute climax  
of this trip that everyone waited for.  
We had a ~~to~~ appalling start but managed  
to recover under my command and went  
2nd. The rest of the day was  
us chilling in the pool and jumping  
and fighting on the water trampolines  
I and Lavender had a long  
line working on the ASA 101 and 103  
with Alex. Overall I amalgamate that  
everyone enjoyed the day and are  
in an euphoric state

Events and Highlights of the Day We awoke early in the morning at beautiful Scrub Island. I was not there to sail the boat to Long Bay as I was busy diving the Leadrock Queen. ~~After I got back~~ On the dive we saw hundreds of jellyfish and we had to blast them away with our alternate air sources. It was good fun. After I got back, we ate lunch and then did the Olympics on the beach. After the competitions we had a chill day on the beach. From then on it was an easy day with our showers and dinner.

Also Anton got Staph

Events and Highlights of the Day Well then... Last day ♡. Before we  
wake up, our captain and mate motored the boat  
so we can wake up to a new destination.  
Snorkeling and jump rock was so fun! Then,

said our goodbyes, did our airplane letters.
