Events and Highlights of the Day The day began with Kristen, the mate of the day, playing everyone's favorite Irish jig. We all got up pretty quickly this morning because we were excited to practice our jibes on the way to Little Harbor. Plus, we had heard that the beach on Sandy Cay was beautiful! Jen and Heather made an awesome egg and cheese casserole for breakfast. After that we got underway and Will and Eric taught a hilarious lesson on Bernoulli's Principle. We thought the exciting part of our sail was over, but a pod of dolphins came up at the end and escorted us into the harbor! And as for the beach, it was even more BEAUTIFUL than everyone had said.

Events and Highlights of the Day Today we sailed from Scrub Island to Kane Garden Bay in Tortola. Sailing around reefs and downwind was hard but we eventually made it. While I was sailing the rest of the group crew was having an awesome dance party in the cockpit. In Kane Garden Bay we met up with Mega Fleet for the first time. We met on the beach for a social with lots of frozen drinks, pizza, fries, and happy kids. It was also repositioning day. We got two new fruit hammocks and plenty more chicken. Events and Highlights of the Day When we all woke up, we were in another place called "The Bass." We were greeted by lovely potatoes & Pancakes by Trace. Next we all got our snorkel stuff and we started to swim our way to the island. Once we got there Jess told us a cool geology story about the tectonic plates and how volcanoes erupt. Later we took a little walk through the rocks. We saw this very cool entrance & exit where water comes and covers the ground then we just had to climb steep stairs. It was very dangerous but fortunately there were ropes that we can hold on to. After the walk,

we found ourselves in a lagoon and there we played a fun game of captin captin. The teachers said to find a snorkel buddy after that game. Snorkeling was a lot of fun. There were so many colorful fish & coral. Later we needed to put our snorkel stuff away if you wanted to jump from one of those big rocks. Bass Island was a set for one of the classic. The classic was called treasure island is were some of the rocks could be just placed there instead from mother nature. Anyway we got to jump of a creepy and also fun. Unfortunately after that thrilling moment, we had to swim back to the boat without snorkel stuff. After that tiring swim, Trace let us eat chips with gucky dip! I was so nervous to hold the wheel after eating high quality chips. I wouldn't say that I failed at driving tonga, but never mind, I failed. It was so hard! For me to go in different directions because it would go slow, then you are tempted to move the wheel even more and then you are doing it too much. We had to stop at Cooper Island to clean the boat perfectly!! We hit to drive the boat again

unfortunately, I was too tired to drive  
So I fell a sleep but woke up right  
on time to doc. It was like parking  
a car so I understood what to  
do. After we doced, we had a boat fam  
moment, we were free to do what ever  
we want to do like: Talk to our Parents,  
Shop, talk, & Shower. We had the best  
dinner ever. (Ribs with macn cheese good  
stuff.) After we had to make a skit for  
the rest of the fleet Our plan was to  
make fun of the teachers like I hate  
the way keegan shoots. And the  
actor who is acting keegan will have to  
shoot... really bad. The assembly was  
about awards, skits & a slide show.  
This is one of the best camps I've ever  
been and if no one could see it. GET  
OUT!!
